Volume Contents

Volume 4 Number 1

V Dubowitz	1	**Commentary from the Editor**
Review Article N H Herzberg, P A Bolhuis, C van den Bogert and P G Barth	3	**Cultured human muscle cells and respiratory chain deficiencies**
Lesson for the Month L Merlini	13	**Calf myopathy with a twist**
Research Papers P J H Jongen, F W A Heessen, H J ter Laak, J M D Galama and F J M Gabreëls	17	**Coxsackie B1 virus-induced murine myositis: relationship of disease severity to virus dose and antiviral antibody response**
L A Wilson, L Dux, B J Cooper, V Dubowitz and C A Sewry	25	**Experimental regeneration in canine muscular dystrophy—2. Expression of myosin heavy chain isoforms**
D G Palmer, P R Dorling and J McC Howell	39	**Bovine glycogenosis type II: the molecular defect in Shorthorn cattle**
Y Yamanouchi, Y Mizuno, H Yamamoto, M Takemitsu, M Yoshida, I Nonaka and E Ozawa	49	**Selective defect in dystrophin-associated glycoproteins 50DAG (A2) and 35DAG (A4) in the dystrophic hamster: an animal model for severe childhood autosomal recessive muscular dystrophy (SCARMD)**
G Åhlberg, F Jakobsson, A Fransson, Å Moritz, K Borg and L Edström	55	**Distribution of muscle degeneration in Welander distal myopathy—a magnetic resonance imaging and muscle biopsy study**
A A W M Gabreëls-Festen, F J M Gabreëls, F G I Jennekens and T W Janssen-van Kempen	63	**The status of HMSN type III**
Workshop Reports C Wallgren-Pettersson and N S T Thomas	71	**Report on the 20th ENMC sponsored international workshop: myotubular/centronuclear myopathy**
V Dubowitz	75	**22nd ENMC sponsored workshop on congenital muscular dystrophy held in Baarn, The Netherlands, 14–16 May 1993**

P W Lunt 83 **Report of the sixth international workshop on facioscapulohumeral muscular dystrophy: San Francisco, 11 November 1992; and current guidelines for clinical application of DNA rearrangements at locus D4S810**

Letter to the Editor
C Granata, S Giannini, A Ballestrazzi and L Merlini 87 **Early surgery in Duchenne muscular dystrophy. Experience at Istituto Ortopedico Rizzoli, Bologna, Italy**

Neuromuscular Disorders: Gene Location 89

Book Reviews 97

Volume 4 Number 2

Research Papers
T R Helliwell, Nguyen thi Man and G E Morris 101 **Expression of the 43 kDa dystrophin-associated glycoprotein in human neuromuscular disease**

K Matsumura, F M S Tomé, H Collin, F Leturcq, M Jeanpierre, J-C Kaplan, M Fardeau and K P Campbell 115 **Expression of dystrophin-associated proteins in dystrophin-positive muscle fibers (revertants) in Duchenne muscular dystrophy**

C A Sewry, A Sansome, K Matsumura, K P Campbell and V Dubowitz 121 **Deficiency of the 50 kDa dystrophin-associated glycoprotein and abnormal expression of utrophin in two South Asian cousins with variable expression of severe childhood autosomal recessive muscular dystrophy**

J W Griffin, R E Tooms, R Vander Zwaag, M L O'Toole and T E Bertorini 131 **Eccentric and concentric muscle performance in patients with spastic paresis secondary to motor neuron disease. A preliminary report**

J F Nielsen and J Jakobsen 139 **A Danish family with limb-girdle muscular dystrophy with autosomal dominant inheritance**

G Piccolo, G Azan, P Tonin, E Arbustini, A Gavazzi, P Banfi, M Mora, L Morandi and S Tedeschi 143 **Dilated cardiomyopathy requiring cardiac transplantation as initial manifestation of Xp21 Becker type muscular dystrophy**

N H Thomas, J Z Heckmatt, E Rodillo, Y F Ransley and V Dubowitz 147 **Continuous muscle fibre activity (Isaacs' syndrome) in infancy: a report of two cases**

Workshop Report
T L Munsat 153 **International SMA Consortium**

A J Larner 155 **Letter to the Editor**

Neuromuscular Disorders: Gene Location 157

Book Reviews 165

ENMC News 169

Volume 4 Number 3

Research Papers

C Dubois, D Figarella-Branger, C Pastoret, C Rampini, G Karpati and G Rougon 171 **Expression of NCAM and its polysialylated isoforms during *mdx* mouse muscle regeneration and *in vitro* myogenesis**

G Goldspink, K Fernandes, P E Williams and D J Wells 183 **Age-related changes in collagen gene expression in the muscles of *mdx* dystrophic and normal mice**

H S Alameddine, B Quantin, A Cartaud, M Dehaupas, J L Mandel and M Fardeau 193 **Expression of a recombinant dystrophin in *mdx* mice using adenovirus vector**

M Schleef, C Zühlke, F Schöffl and H Jockusch 205 **Subtractive cDNA cloning as a tool to analyse secondary effects of a muscle disease. Characterization of affected genes in the myotonic ADR mouse**

S Orimo, R Koga, K Goto, K Nakamura, M Arai, M Tamaki, H Sugita, I Nonaka and K Arahata 219 **Immunohistochemical analysis of perforin and granzyme A in inflammatory myopathies**

R M Quinlivan, S A Robb, S M Hall, M Honavar, R A C Hughes and V Dubowitz 227 **Infantile axonal neuropathy in two siblings**

F Muntoni, G Catani, A Mateddu, M Rimoldi, T Congiu, G Faa, M G Marrosu, C Cianchetti and M Porcu 233 **Familial cardiomyopathy, mental retardation and myopathy associated with desmin-type intermediate filaments**

F Dworzak, F Casazza, M Mora, R De Maria, E Gronda, G Baroldi, M Rimoldi, L Morandi and F Cornelio 243 **Lysosomal glycogen storage with normal acid maltase: a familial study with successful heart transplant**

D Vilozni, E Bar-Yishay, I Gur, Y Shapira, S Meyer and S Godfrey 249 **Computerized respiratory muscle training in children with Duchenne muscular dystrophy**

Case Reports

R J Barohn, R A Brumback and J R Mendell 257 **Hyaline body myopathy**

H Topaloglu, S Gögüş, K Yalaz, T Kücükali and A Serdaroglu 263 **Two siblings with nemaline myopathy presenting with rigid spine syndrome**

Workshop Reports

F G I Jennekens 269 **19th ENMC workshop on neurotrophic factors and lower motor neurone diseases**

L T Middleton	273	**23rd ENMC workshop on rare neuromuscular diseases**
Neuromuscular Disorders: Gene Location	277	
Mitochondrial Encephalomyopathies: Gene Mutation	285	
Book Reviews	289	
Announcement	295	

Volume 4 Number 4

	297	Editorial
	298	Editorial Announcement
C. Angelini	299	*Preface*
Introduction A E H Emery	301	**Some unanswered questions in Duchenne muscular dystrophy**
Review Article O Hardiman	305	**Dystrophin deficiency, altered cell signalling and fibre hypertrophy**
Research Papers K Tanji, S Sancho and A F Miranda	317	**Innervation of MyoD-converted human amniocytes and fibroblasts by fetal rodent spinal cord neurons**
J R M Gorospe, M Tharp, T Demitsu and E P Hoffman	325	**Dystrophin-deficient myofibers are vulnerable to mast cell granule-induced necrosis**
F A Saad, G Vita, L Toffolatti and G A Danieli	335	**A possible missense mutation detected in the dystrophin gene by double strand conformation analysis (DSCA)**
F M S Tomé, K Matsumura, M Chevallay, K P Campbell and M Fardeau	343	**Expression of dystrophin-associated glyocoproteins during human fetal muscle development: a preliminary immunocytochemical study**
C Angelini, M Fanin, E Pegoraro, M P Freda, M Cadaldini and F Martinello	349	**Clinical–molecular correlation in 104 mild X-linked muscular dystrophy patients: characterization of sub-clinical phenotypes**
N Bresolin, E Castelli, G P Comi, G Felisari, A Bardoni, D Perani, F Grassi, A Turconi, F Mazzucchelli, D Gallotti, M Moggio, A Prelle, C Ausenda, G Fazio and G Scarlato	359	**Cognitive impairment in Duchenne muscular dystrophy**

G Nigro, L Politano, V Nigro, V R Petretta and L I Comi — 371 — **Mutation of dystrophin gene and cardiomyopathy**

Case Reports
G Siciliano, M Fanin, C Angelini, L E Pollina, M Miorin, F A Saad, M P Freda and A Muratorio — 381 — **Prevalent cardiac involvement in dystrophin Becker type mutation**

T Kyriakides, G Gabriel, A Drousiotou, M Meznanic-Petrusa and L Middleton — 387 — **Dystrophinopathy presenting as congenital muscular dystrophy**

Neuromuscular Disorders: Gene Location — 393

Mitochondrial Encephalomyopathies: Gene Mutation — 397

ENMC News — 399

Volume 4 Number 5/6

C A Sewry, K Matsumura, K P Campbell and V Dubowitz — 401 — **Expression of dystrophin-associated glycoproteins and utrophin in carriers of Duchenne muscular dystrophy**

U Lenk, R Hanke and A Speer — 411 — **Carrier detection in DMD families with point mutations, using PCR-SSCP and direct sequencing**

M-P Chevron, F Girard, M Claustres and J Demaille — 419 — **Expression and subcellular localization of dystrophin in skeletal, cardiac and smooth muscles during the human development**

N J Winand, M Edwards, D Pradhan, C. A. Berian and B J Cooper — 433 — **Deletion of the dystrophin muscle promoter in feline muscular dystrophy**

A J Tahmoush, K L Schaller, P Zhang, T Hyslop, T Heiman-Patterson and J H Caldwell — 447 — **Muscle sodium channel inactivation defect in paramyotonia congenita with the thr1313met mutation**

E A M Janssen, G W Hensels, B A van Oost, B C J Hamel, S Kemp, F Baas, J W Weber, P G Barth and P A Bolhuis — 455 — **The gene for X-linked myotubular myopathy is located in an 8 Mb region at the border of Xq27.3 and Xq28**

E Le Guern, N Ravise, M Gugenheim, A Vignal, C Penet, P Bouche, J Weissenbach, Y Agid and A Brice — 463 — **Linkage analyses between dominant X-linked Charcot-Marie-Tooth disease, and 15 Xq11–Xq21 microsatellites in a new large family: three new markers are closely linked to the gene**

L H Yamaoka, C A Westbrook, M C Speer, J M Gilchrist, E W Jabs, E G Schweins, J M Stajich, P C Gaskell, A D Roses and M A Pericak-Vance	471	**Development of a microsatellite genetic map spanning 5q31–q33 and subsequent placement of the LGMD1A locus between D5S178 and IL9**
P E Jardine, M Upadhyaya, J Maynard, P Harper and P W Lunt	477	**A scapular onset muscular dystrophy without facial involvement: possible allelism with facioscapulohumeral muscular dystrophy**
R Majumdar, V A Cwik and M H Brooke	483	**Evidence of two mechanisms of prostaglandin release in an *in vitro* model of muscle damage. Possible therapeutic implications**
S M Hassan, F G I Jennekens, G Wieneke and H Veldman	489	**Calcitonin gene-related peptide-like immunoreactivity in botulinum toxin-paralysed rat muscles**
N H Thomas and V Dubowitz	497	**The natural history of type I (severe) spinal muscular atrophy**
L Merlini, L Morandi, C Granata and A Ballestrazzi	503	**Bethlem myopathy: early-onset benign autosomal dominant myopathy with contractures. Description of two new families**
R J Barohn, C E Jackson and K S Kagan-Hallet	513	**Neonatal nemaline myopathy with abundant intranuclear rods**
R Kay, Y-W Chan and M S Schwartz	521	**The wasted leg syndrome, a single fibre electromyographic study of arms and legs**
Letter to the Editor J Ignatius	527	**The natural history of severe spinal muscular atrophy—further evidence for clinical subtypes**
Neuromuscular Disorders: Gene Location	529	
Mitochondrial Encephalomyopathies: Gene Mutation	533	
Euromyasthenia IV	S1
